SHAYANN GONZALEZ

IT STUDENT

OBJECTIVE

Motivated student with a keen interest in software development and web design looking for work opportunity to develop my skills and gain experience in the IT field.

EXPERIENCE

VERSATILE STUDENT, INTERMACHÉ

(2019 - still current)

I had a classic student job in a supermarket. However, as the years went by, the shop put its trust in me by giving me more and more responsibility: managing the bakery on my own, managing the fruit and vegetable section, training new students, etc.

YOUTH MOVEMENTS

(2015 – still relevant)

I've been involved in youth movements since I was a teenager, and I was able to grow and develop through scouting. With 5 years as a leader under my belt, I'm very familiar with group life, resourcefulness and how to manage a group.
